

Remarks

Drawings

The Examiner objected to the drawings because reference character "43" was used for two different elements. An amended Figure 5 has been submitted in which the referenced character for the plasma is changed to "55". The specification has been amended above to reflect this change.

The Examiner also objected to the drawings because reference character "14" which is mentioned in the specification did not appear in the drawings. The specification has also been amended to delete the referenced character "14".

The Examiner also objected to the drawings because reference character "42" which was shown in figure 5, but not mentioned in the specification. The amended figure 5 deletes the referenced character "42".

Abstract

The Examiner objected to the abstract and a new one has been submitted herewith.

Claims

The Examiner rejected claim 31 under section 112, second paragraph for the indefinite phrase "the conductive surface." Claim 31 has been cancelled.

Conclusions

The applicants have amended the drawings and specification to correct the deficiencies noted by the Examiner. No new material has been added. Applicants, therefore, believe that the application is now allowable.

Respectfully submitted,

A handwritten signature in black ink, reading "G. Marlin Knight". The signature is written in a cursive style with a large, stylized "K" at the end.

G. Marlin Knight (Reg. Number 33,409)
